Google

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

# PREFACE.

Thirty-six years ago, in the year 1850, Mr. George Adams, the founder of the publishing house of Adams, Sampson, & Co., now known as Sampson, Murdock, & Co., by arrangement with Mr. Henry Whipple of Salem, prepared a Directory of Salem, and since that time the work has been issued regularly from this office, increasing gradually from a small book of 238 pages, 4 x 6 inches, to the present large volume containing 1,000 pages, representing Salem and the surrounding towns of Peabody, Beverly, Danvers, and Marblehead. Many improvements have been added from time to time, and a new feature in the present number is the plan of giving telephone numbers in connection with the names of all subscribers to the Telephone Exchange. The publishers have labored conscientiously for the best results; particular care has been taken to render all the departments complete and accurate, and while we have aimed to exclude all matter not properly belonging to the Directory, have omitted nothing that these many years of experience have shown to be of practical value.

The statement below will give some idea of the number of alterations that have been made in compiling this volume, and denotes an unusual number of changes in the population and business during the past two years.

Our thanks are due to the public generally for the courtesy and assistance that have been extended to our agents while collecting information, and especially to those who have generously favored us with their patronage; it is gratifying to be able to state that in each of the five places represented in this book the number of our patrons has increased, — this edition of the Salem Directory being the largest ever published.

SAMPSON, MURDOCK, & CO.

**Basis of the System.**—1. The unit of length, the *meter*, is the ten millionth part of a quadrant of the meridian of Paris, being 39.37 inches, nearly. 2. The unit of surface, the *are* is the square of ten meters, or a hundred square meters. 3. The unit of capacity, the *liter*, is a cube whose edge is a tenth of a meter. 4. The unit of weight, the *gram*, is the weight of a cube of rain-water, whose edge is an hundredth of a meter. From these four primary units all others are derived according to the decimal scale.

**Where used.**—The system is adopted by the following countries: in exclusive use in France, Germany, Austria, Belgium, Holland, Italy, Spain, Portugal, Switzerland, Roumania, Brazil; in partial use in Denmark, Greece, Argentine Confederation, Venezuela; legalized, but not in general use in the United States, Great Britian, Russia, Sweden, Norway, Turkey, Mexico, Chili, Costa Rica, Equador, Peru, U. S. of Columbia, Uraguay. In Sweden compulsory law will take effect in 1889.

**Abbreviations.**—For meter, liter, and gram, the small initial letter is used, viz: m. l. g.; each division deci, centi, milli, also is abbreviated by using the small initial letters d. c. m.; but each multiple, deka, hecto, kilo, myria, is abbreviated by using the capital initial letter D. H. K. M.

**Equivalents.**—1 inch equals .0254 meter, or about 2½ centimeters; 1 foot equals .3048 meter, or about 30 centimeters; 1 yard equals .9144 meter, or about 10-11 of a meter; 1 mile equals 1609. meters, or about 1 6-10 kilometers.

1 U. S. liquid quart equals .946 liter, or a little less than 1 liter; 1 U. S. dry quart equals 1.101 liters; 1 U. S. gallon equals 3.785 liters, or about 3 8-10 liters; 1 U. S. bushel equals 35.24 liters, or about 4-11 of a hectoliter.

1 avoirdupois ounce equals .02835 kilogram, or a little less than 30 grams; 1 Troy or apothecaries ounce equals .03110 kilogram or a little more than 30 grams; 1 avoirdupois pound equals .45359 kilogram, or about 5-11 of a kilogram; 1 long ton—2240 pounds—equals 1016.05 kilograms, or about 1 metric ton.

**Here PATRIOT TRUTH its glorious precepts draw,**
**Pledged to RELIGION, LIBERTY, and LAW.**

---

**For more than *eighty years* the REGISTER has been a reputable Family Paper in Essex County, and its large circulation in Salem and the neighboring towns, makes it a desirable medium for local advertisements and for parties desirous of securing customers in this vicinity.**

## *TERMS OF ADVERTISING:*

**Advertisements of more than half a square, and not exceeding a square, $1.50 for three insertions, once a week, or in three papers in succession, at the option of the advertiser; 16⅔ cents for every additional insertion.**

**Advertisements not exceeding half a square, $1.00 for three insertions as above; 12½ cents for every additional insertion.**

**Probate Notices of every kind, not exceeding a square, $1.50 for three insertions; exceeding a square, at ruling rates.**

***Sixteen lines of Nonpareil type* are equal to a square.**

**When advertisements are ordered to be continued on the INSIDE, fifteen per cent. extra must be paid for one insertion.**

**Ten cents a line must be paid for notices of meetings for political, civic, and religious purposes, notices of societies, cards of acknowledgment from individuals, companies, etc., for one insertion, and 6¼ cents for each subsequent. Business notes, 15 cents per line for first insertion; ten cents a line for the second, and six and a quarter cents a line for each subsequent insertion. Funeral notices twenty-five cents. Obituary notices or poetry, ten cents per line.**

**The privilege of Annual Advertisers is limited to their own immediate business; and all advertisements for the benefit of other persons, as well as all legal advertisements, and advertisements of real estate, or auction sales, sent in by them, must be paid for at the usual rates.**

☞ **All advertisements intended for this paper must be marked on the margin of the copy the number of insertions desired; otherwise they will be published till ordered out, and charged accordingly.**

***** No paper will be discontinued till all arrearages are paid, except at the option of the publishers; and any person wishing his paper discontinued must give notice thereof *at the expiration of the term, at the office, whether previous notice has been given or not.***

## THE ESSEX COUNTY MER

Is made up from the reading matter of the Salem Gazette, and published Gazette, for **$2.00 per annum in advance, or $2.50 otherwise.** It circ the country towns of Essex County (for the most part in the country), and i read and known throughout the county. Being made up from the same re partakes of the same general characteristics of the Salem Gazette.

## TO ADVERTISERS:

The SALEM GAZETTE is circulated mainly in Salem; the ESSEX COUNTY MERCURY principally out of Salem, in the County of Essex. Every new advertisement in the Gazette has an insertion also in the Mercury, without additional charge. There is not a city or town in Essex County, where the Gazette or Mercury is not taken. In Beverly, Marblehead, Peabody, Danvers, Middleton, Lynnfield, Wenham, Hamilton, Ipswich, Rowley, Topsfield, Georgetown, Boxford, Essex, Manchester, and even in several of the towns more remote from Salem, the circulation is large. Every new advertisement is placed before about 3,500 subscribers. There is scarcely a month through the year when the circulation is not at times in excess of this. As both the Gazette and Mercury are largely sent into distinct families, and are largely *exchanged* with other families in country neighborhoods, we presume it is a fair estimate to say that these papers have full *twenty thousand distinct readers* every week.

MANUFACTURERS AND IMPORTERS OF

# Surgical & Dental

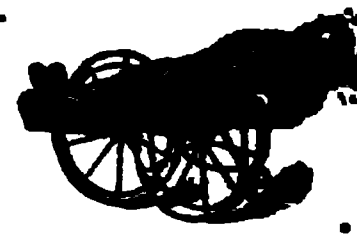
## INSTRUMENTS,

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:

## INVALIDS' ROLLING

—AND—

## BATH CHAIRS,



## TRUSSES,

A large assortment of best patterns from which to select, to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel.—N.B.—Ladies attended by those of their own sex.

## ELASTIC HOSE,

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity; the steel silk being usually the most satisfactory. The sizes are full length (of leg), three quarters, half or knee hose, knee caps, and anklets. Unusual sizes made to order. Also

**Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages. Apparatus for Weak Ankles, Bow-Legs, Club-Feet, etc. Also, Crutches of various and most improved kinds; Syringes, Rubber Urinals, to wear on the person day or night, for Males and Females; Galvanic Batteries, Hearing Trumpets, Auricles, and Conversation Tubes for the Deaf.**

Together with many other articles for the use of the SICK and INVALIDS. Also, the largest and best assortment of

## Atomizers & Nasal Douches,

To be found in the United States. A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics Association, as will be seen from the following report, signed by a leading New England Surgeon and Physician:

"1503. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers.

"The Committee have no hesitation in awarding for this superb exhibition highest premium. * * * The various other instruments for inhalation of atomized liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture. GOLD MEDAL. (Signed), GILMAN KIMBALL, M. D., Chairman.

# Arlington Wheat Meal.

## AN UNEQUALLED FOOD FOR ALL.

**Reasons why it is Preferable to Flour.**

**FLOUR** is the only impoverished food used by mankind — impoverished by the withdrawal of the tegumentary portion of the wheat, leaving the internal or starchy portion. See the facts!

In chemistry we find that in 100 parts of substance —

Wheat has an ash of 17.7 parts;

Flour an ash of 4.1 parts, — an impoverishment of over three-quarters.

Wheat has 8.2 parts of Phosphoric acid;

Flour 2.1 parts Phosphoric Acid, — an impoverishment of about three-quarters.

Wheat has 0.6 Lime and 0.6 Soda;

Flour has 0.1 Lime and 0.1 Soda, — an impoverishment of five-sixths Lime and Soda each.

Wheat has Sulphur 1.5. Flour has no Sulphur.

Wheat has Sulphuric Acid 0.5. Flour has no Sulphuric Acid.

Wheat has Silica. Flour has no Silica.

Endorsed by all Physicians as an unequalled food for Invalids and Families.

Pure Wheat Meal contains more life sustaining properties than any other food.

It is a natural food for every Brain Worker, containing the necessary Elements to strengthen the Brain.

People who live mostly upon flour will, if they use the Arlington Wheat Meal, find their expenses in this department diminished three-fourths. The Wheat Meal will go further and give four times as much nutriment as an equal amount of flour.

Laboring men can do their work with less exhaustion, because it contains more Sustaining Forces than any other food.

Children who feed on this need never be troubled with Cholera Infantum which destroys so many children.

## REGIMEN AND DIET.

Every effort of the mind or movement of a muscle involves the expenditure, or waste, of nervous energy and vitality, in proportion to the magnitude of the effort; these wasted products pass off with effete substances from the body, while recuperation is effected by nutrition. The loss of *physical force* by using Common Flour is immense, which analysis proves. First, then, make use of

## Arlington Wheat Meal,

**(MADE FROM ALL THE WHEAT.)**

**A perfect food for Children, making them Strong and Vigorous — also imparts strength to the aged.**

This article contains ALL THE WHEAT. In the coverings of the wheat are the Phosphates which go to constitute bone and muscle, and materially assist digestion by causing the rapid decomposition of the food. It is in this way the Phosphates in Arlington Wheat Meal act, giving new power and strength to the system.

Many cases of Dyspepsia of long duration have been cured by eating WHEAT MEAL, and it is a positive cure for constipation.

Dogs fed by Magendie (vide Kirks & Paget's Physiology) on flour, died in forty days; other dogs fed on wheat meal bread flourished and throve. The three-fourths impoverishment of the mineral ingredients proved fatal to the first. Why should mankind suffer from living on impoverished food as they do?

The history of the Roman Empire in the time of Julius Cæsar, shows that wheat, as an article of food, combined with fresh out-door air life, is capable of producing and sustaining the highest type of physical manhood the world ever saw. The empire was built up and maintained by soldiers whose main article of food was wheat.—*See Boston Journal of Chemistry, February, 1875.*
